

This oldie-but-goodie “freebie,” based on 2011’s walk, is offered as a courtesy by the Gumshoe Answer Man. Please return the courtesy by carrying and donning a **safety mask** and maintaining good **social distancing** when in the proximity of others along the route. Other things to know:

- The walk starts and ends in front of Ken’s Market, 7231 Greenwood Ave N.
- It crosses some busy streets and uneven sidewalks—be vigilant and careful.
- All clues are visible from public thoroughfares—don’t trespass on private property.
- After solving any clue, continue walking in the same direction you were headed before you derived your answer, unless the next clue directs you otherwise.
- Clues are designed to test your brain power, but answers are always “aha!” obvious. However, if the “aha!” eludes you, text your phone number—just your phone number—to 206.930.8374 and, if the Answer Man can, he’ll call you right back with guidance. If he doesn’t, join Do The Gumshoe on Facebook and ask fellow gumshoes for hints.
- Clue answers for this walk will be posted at DoTheGumshoe.org on June 30, and two more oldie-but-goodies, based on the 2012 and 2013 walks, will be posted July 1 and August 1.

Now start walking.

- 1 _____ With water in solid form to your back, bank past home to the exclamation point. What goes with Frisches? (N 47.6822, W 122.3554)
- 2 _____ When you reach the house, proceed under the sign of the 18th century. Where tiles step, small groups gather. Reptiles, mammals or amphibians? (N 47.6826, W 122.3561)
- 3 _____ At the yellow-topped Corey, pivot in the direction it’s not pointing and perambulate to the next intersection. Find 865, put it behind you and proceed until three grounded digits total five. Head or tail? (N 47.6832, W 122.3593)
- 4 _____ At the cornered boulders, turn opposite their turn to the jeweled wall. In the yellow-bordered section, what proportion of the cubes are clear? (N 47.6837, W 122.3606)
- 5 _____ Power under the tallest line to the area of no-cost pharmaceuticals, then turn in the direction of the sign’s wood. Below the seagull, chain or rope? (N 47.6847, W 122.3596)
- 6 _____ At the next crossroads, traverse only one to walk toward the steeple. A few steps beyond where the second ahead is directly across from you, what geometric shape best describes the doubly wired tree hangers? (N 47.6859, W 122.3580)
- 7 _____ Past the solarized garage, follow the wood fence all the way to the one-legged skeleton. What adorn the brim of the pumpkin’s top hat? (N 47.6869, W 122.3584)
- 8 _____ Where twin diamonds loom large behind you, look for and follow the tallest retaining structure past the blue dinosaur into the area where all is busy. Find the walled flyer. Of what does the flyer dream? (N 47.6876, W 122.3588)
- 9 _____ At the last large trunk, turn toward the end of the zone. Where side chimneys are directly across from each other, go to the fence step and look into the back yard. What sport? (N 47.6886, W 122.3580)
- 10 _____ Where red runs over gold, subtract the sum of the founding year digits from the number of circled cylinders, add half the number of gold hoofed animals to the remainder, and divide the sum by the number of white lions. How many dozen? (N 47.6892, W 122.3582)

- 11 _____ Look for the nearest blue-tinted conifer and proceed past the back of the stop and it to the rainbowed barrier makers. What republic? (N 47.6892, W 122.3569)
- 12 _____ At the tree box, cut past the haze to the abandoned aid place. What sense? (N 47.6899, W 122.3554)
- 13 _____ Pass under the herd to the antlers, then by the nearest numbers that total seven, to the root. What kind of loop? (N 47.6907, W 122.3562)
- 14 _____ Cross to where time stands still. Roy who? (N 47.6905, W 122.3566)
- 15 _____ Beyond the king, take direction from P to its entrance. In inches, what is the clearance? (N 47.6903, W 122.3581)
- 16 _____ Proceed as ex is to it, past the sign of love and waste. At the rock wall directional decision point, follow it to the end of the double yellow lines. Carefully cross the double yellow lines and maintain your course to the glassed pole. Dumbo or Po? (N 47.6899, W 122.3610)
- 17 _____ When you see the treehouse's dream, cross to it and past the swinging deciduous. Before you reach what John Donne posited no man is, redirect to take the shrubbiest path to the brick wall. How many monkeys? (N 47.6894, W 122.3632)
- 18 _____ Follow Roebuck's ex's enclosure to the crowned post. Lions, tigers or bears? Oh my. (N 47.6884, W 122.3616)
- 19 _____ Go to where it's better. Who loves them? (N 47.6883, W 122.3611)
- 20 _____ Look for the three hose connectors and travel in the direction the largest points until you come to the lessons place. Who can you call for them? (N 47.6878, W 122.3608)
- 21 _____ At the déjà vu intersection, cross to the only corner missing your touch and beeline past 78's white and brown gateways to turn to the XX, albeit expressed in different numerals. What goes with 96-1 and 96-2? (N 47.6855, W 122.3608)
- 22 _____ Near the molded anemometers, straddling the fence, how many bowling balls? (N 47.6855, W 122.3630)
- 23 _____ Diagonal through what no man or, for that matter, no being is to the multi-planed stones, then follow the uninterrupted stack past the award star to the green metal box. Turn to the arch and step over the wall. Besides live and love, what do Dale and Doree advocate? (N 47.6843, W 122.3636)
- 24 _____ Leave through the columnar quad and face the pocket. Turn 540 degrees and proceed to the jacketed swan. Signwise, what is the garden doing? (N 47.6841, W 122.3617)
- 25 _____ Approaching the horizontally striped and diagonally opposed posts, turn to pass to the port of the closest one and continue past the paintless horizontal boards to the painted vertical ones. Corner with them, then find the countdown address. The animals under it, what pole? (N 47.6832, W 122.3617)
- 26 _____ Rock past the cairn to the corner, then pivot to continue under the leaner until you spot xing left. Go to it. What kind of dog? (N 47.6822, W 122.3632)
- 27 _____ At the squared fence, whose homestead? (N 47.6822, W 122.3621)
- 28 _____ Carefully cross the twin yellow lines again and climb where gravity offers its greatest challenge. In the star gate, what's not a star? (N 47.6822, W 122.4599)
- 29 _____ Continue until arrows chase their tails. Keep starboard of the trio to the unregistered little free library. How many dozen red squares in the checkerboarded chimney? (N 47.6820, W 122.23580)
- 30 _____ At your next directional decision point, bisect the red circle to continue the opposite way water runs to the black bumps. Cautiously note and report what's above Logix. (N 47.6818, W 122.3566)

Launch yourself toward the yellow guard cylinders and you'll find yourself back where you started.
