

This is a special kid's (or beginner's) Gumshoe. It's .85 miles shorter and has simpler wordplay and fewer obscure cultural references than a regular Gumshoe. Things to know before you begin:

- The walk starts and ends at the pocket park at 6th Ave NW and NW 76th St.
- The route crosses some busy streets and uneven sidewalks—stay alert and be careful.
- All clues are visible from public thoroughfares—don't trespass on private property.
- After solving any clue, continue walking in the same direction you were headed before you came up with your answer, unless the next clue directs you otherwise.
- Clues are designed to test your brain power, but answers are always “aha!” obvious. However, if the “aha!” eludes you, text your phone number—just your phone number—to 206.930.8374 and, if the Answer Man can, he'll call you right back with guidance. If he doesn't, use each clue's GPS coordinates to help or join Do The Gumshoe on Facebook and ask fellow gumshoes for hints.
- Clue answers for this walk will be posted at DoTheGumshoe.org on August 31. To find the answers, you'll need the URL the AM will reveal on the Gumshoe's Facebook page.

Now start walking.
