

August 2022 Gumshoe Solved

- 1 **Deep** Slide from the cultured vulture's nest as mud would, past the half hour of packing and unpacking, to the lodge of the raging rodent. Fear the what? (N 47.6903°, W 122.3552°)
- 2 **Burritos** At the end of the exceptional lane, turn opposite its signed instructions to pass under the illuminated arrowhead. At the windows stenciled in reds and blues, what do babies ride? (N 47.6905°, W 122.3560°)
- 3 **Brown** Short of half a sawbuck, parallel the unauthorized barrier over gravel and brick until you can pivot to directly face the fisted figure. What color pants? (N 47.6903°, W 122.3561°)
- 4 **50** At the striped rusty poles, follow their line past the pants, then colorful canopies, to the double bubble. Look around for what's fine and add its doubled numerals, divide their sum by the first of the non-doubled numerals, and multiply the quotient by the difference between the fourth and sixth numerals, also non-doubled. What do you get (the correct answer) besides a math class flashback? (N 47.6902°, W 122.3579°)
- 5 **Pig** Follow fine's ninety degree change, but only once. Then, beyond cornered risers and short of the cracked blocks, change direction to take the slow route. Within sight of 5, what stands atop the cardinal points? (N 47.6895°, W 122.3576°)
- 6 **Love** Just past 7, turn to incline. At the fixture pictures, take what would be Stanley's retreat from the warning sign to the elfin pair. Love is what? (N 47.6891°, W 122.3563°)
- 7 **17** Maintain your heading past the waving trio, crossroad and inline's vertical plane to the tall and cockeyed monster tree. How many teeth? (N 47.6891°, W 122.3598°)
- 8 **Butterfly** Where negated P hangs from wood, fly away from the fish to skirt the little stumped trunk. At the large amputated limb, pivot with its property to the free zone, then diagonal to the paired poles and follow the picket line to the curbed fence. Look from where you came. What struggles to stay atop the rail? (N 47.6883°, W 122.3593°)
- 9 **Birds** Resume a straight trajectory between things gnarled and hooped, past a pair of stops and tiny dinosaurs, to the pot-flanked steps. What aren't real? (N 47.6883°, W 122.3567°)
- 10 **Eyes** Short of the plaza, redirect to follow the path along its vehicular resting strip, through the dip in grade past the 16th president. At the next place where vehicles are expressly prohibited from doing what they do at the plaza, redirect again to pass beneath boughs. Where the canine is in silhouette, look behind you. A painted pair of what? (N 47.6873°, W 122.3569°)
- 11 **B** When forward progress becomes impossible, go as 19 is to response. At the next gate, what subsection? (N 47.6875°, W 122.3581°)
- 12 **32** Cruise cluelessly for awhile, then pass through the shady grove to where bun-topped figures ruminant. How many wheels have their backs? (N 47.6893°, W 122.3581°)
- 13 **Trees** Bypass platforms both high and low to the treed atoll, then take the way that avoids backtracking or passing by it. Where won is underlined but backwards, save what? (N 47.6898°, W 122.3592°)

- 14 **63** When the terrain levels a second time, carefully cross to the faded stripes, look behind and continue on an imaginary line drawn from A to W. At the round-headed pair, continue in the opposite direction they're headed to well beyond ASAP. On the finned derelict, wash what? (N 47.6895°, W 122.3624°)
- 15 **Circle** At the fishy gulf's forged groundwork, do not pass it by. Instead, decline until you arrive at the cable with a six o'clock indicator, then take the three o'clock path behind it past protection to where pinwheels protect beds. What geometric shape distinguishes the swinger? (N 47.6891°, W 122.3651°)
- 16 **Hall** When you come to the plastic-tied leaner, look for the stained bird and make passage between it and the two-dimensional cyclist. Scoot past scout, but swerve with sundries around the corner and past the warning. At 2013, Patricia who? (N 47.6898°, W 122.3650°)
- 17 **Cat** Where the gnome reclines, angle to the golden plug and resume your direction of travel to the red one. Continue in the way it does not point, to the pottery furnace's abode. What peers over the non-living foliage? (N 47.6902°, W 122.3634°)
- 18 **Big D** Proceed opposite the direction the mouse is fishing to the sign where an x changed to in identifies a never-ending dwelling. Nearby, who tows? (N 47.6902°, W 122.3652°)
- 19 **Alley** Beyond the shampooer, look for the terra firma of 10 x 10 x 10 yeast-fermented beverages and signal to its backside. Ignoring graffiti, don't block the what? (N 47.6910°, W 122.3659°)
- 20 **Yield** Take the first possible turn beyond the barely noticeable fox not wearing underwear to very cautiously share the roadway. Quite a ways past the spidery exterior and a little ways beyond where signs guard letter receptacles, caution, stop or yield? (N 47.6914°, W 122.3634°)
- 21 **Pop** Cross multiple drains until you're between dirt paths. Take the one leaving chevrons in its wake and, when it ends, carefully navigate past the elevated blue trike to turn onto the green-centered tracks bordering the auto shelters. To whom does the gray shelter belong? (N 47.6924°, W 122.3629°)
- 22 **Glasses** Just beyond the sign of multilingual greetings, enter and beeline to the other end. Besides a hat, what is the crow wearing? (N 47.6927°, W 122.3621°)
- 23 **Blading** Exit to pass the wheeled figures. Where red and white 3s flank the thoroughfare, cross, using eye contact to stop drivers, and resume forward motion on the widest path to the group's windowed placard. Look for and follow the row of meters to the irrigation management space. No roller what? (N 47.6924°, W 122.3593°)
- 24 **Sabbath** When #23's prohibition repeats itself, take the uniform tree line to where its uniformity is widely interrupted, then cross in defiance of the crossing roadway's sign to advance along the ferned hillside. Where rock is not boulder, black what? (N 47.6914°, W 122.3574°)
- 25 **Hama** Now traipse past where rock is boulder to vestments. From there, change headings to go to the plural of what goes with rock. Negi what? (N 47.6915°, W 122.3560°)
- 26 **2010** Track under the very small MRGB and, when the light is right, stripe to where pupusas forces a turn. Take the wrought iron route to the sign of paired fruit. Established when? (N 47.6909°, W 122.3552°)
- 27 **Puck** Below fala failing to end in a holiday song's refrain, rotate counterclockwise 810 degrees and proceed just past 45's pause point. Find the large invertebrate and flow through the school to the sporting vertebrate. On what does it have its eye? (N 47.6903°, W 122.3548°)
- 28 **Giving** When you find yourself close to a haircut, go past west and under the red canopies to the second of the woody remains. What kind of tree is it now? (N 47.6898°, W 122.3534°)
- 29 **GL** At the yellow survey marker, look for the horizontally tired birds half a block away. GT, GX or GL? (N 47.6895°, W 122.3527°)
- 30 **Clothing** Where rows stacked three high curve, follow them beyond the metal arbor and topiary all the way to the drop in place. What is still required? (N 47.6892°, W 122.3548°)

Done!
